C_TADM70_22

1. Which ABAP Dictionary definitions are available when you use R3LDCTL to generate structure fi es for heterogeneous and homogeneous system copies? Note: There are 2 ✔ answers to this question.
Primary key fields✔
Partition fields
Compression fields
View fields✔

2. The R3L0AD command line only contains the parameters required for reading the command file and writing a log file.

What happens if an R3LOAD process finds a 'TSK.BCK and a 'TSK file while starting? Please choose the ✔ answer.
it reads the TSK file and copies it over the TS
BCK file.✔
it leaves the TSK and TS
BCK file as they are and terminates.
it deletes the TS
BCK file and uses the TSK file.
it merges the TS
BCK file into the existing TSK file.

3. Which of the following is used to determine the assignment of a table to a specific table category? Please choose the ✔ answer.
"Max Extent"
"Min Extent"
"Next Extent"✔
"Default Initial Extent"

4. The Jload import of package IMPORT_35_J2EE_CONFIGENTRY failed. When Jload is restarted, which file contains the where condition to delete already loaded data?
IMPORT_35_J2EE_CONFIGENTR
XML
IMPORT_35_J2EE_CONFIGENTR✔
WHR
IMPORT_35_J2EE_CONFIGENTR
STA
IMPORT_35_J2EE_CONFIGENTR
STATXML

5. Which of the following are the Sockets using R3LOAD Export/Import? There are 2 ✔ answers to this question
Features concurrent export and import✔
Released since R3LOAD 6.40
Fully supported by the SAPINST
Network connection is a must✔

6. What are some of the files of the LOADTOOLS.SAR archive delivered with the Software Provisioning Manager (SWPM)? Note: There are 2 ✔ answers to this question.
DDLGE✔
TPL
MIGCHECK✔
R3LDCTL
R3TA table splitter

7. Which of the following programs generate Java Job files to support a parallel export and import? Please choose the ✔ answer.
JPKGCTL✔
JMIGMON
JLOAD
JSIZECHECK

8. How does an Importing MIGMON process identify if all packages were successfully exported in a paralle export/import scenario? Please choose the ✔ answer.
it analyzes the content of the export tasks files
it verifies the export logs for proper termination
it checks the export statistics properties file for errors✔
it compares the number of packages web the number of signal files

9. List down the characteristics for both Application Server ABAP (AS ABAP) and Application Server Java (AS Java)? There are 3 ✔ answer to this question
Common SID for all application servers and the database✔
Common database (with different schemas for ABAP and Java)✔
Common startup framework✔
Common startup background
Common target database

10. Name the two systems associated with the Import JAVA System? There are 2 ✔ answers to this question
Application System✔
Central System✔
File System
Distributed System✔

11. In an R3L0AD system copy, you notice that tables and indexes were loaded into the wrong database storage unit. When you examine the table and indexes show the ✔ values.

Which of the following files could contain the cause of the problem?
Task File
DDL template file✔
Table of content file
Target database size file

12. The JMIGMON network configuration is useful in environments, where file systems can be shared between source and target system.

What are these systems? There are 2 ✔ answers to this question
Edit System✔
Importing System✔
Exporting System✔
Create System

13. Select the ✔ sequence of ABAP DDIC - DB and Runtime from the following option?
Please choose the ✔ answer.
SAP transaction SE11-> Database utility-> Select object
SAP transaction SE11->Runtime object->Select Unit
SAP transaction SE11-> Table view-> Database utility✔
SAP transaction SE11-> Runtime-> Database Utility

14. Which program creates the EXPORT.XML and IMPORT.XML files? Please choose the ✔ answer.
JLOAD✔
JPKGCTL
SDM
SAPINST

15. 1.In what order are the tasks executed during the export of an AS ABAP source system?
R3LDCTL-> R3LOAD -> R3SZCHK
R3LOAD -> R3SZCHK -> R3LDCTL
R3SZCHK -> R3LDCTL-> R3LOAD
R3LDCTL-> R3SZCHK -> R3LOAD✔

16. What was the main purpose of the JSPLITTER development? Please choose the ✔ answer.
To check the resource availability for JAVA system
To reduce the Import/Export runtime for large JAVA system✔
To run migration system over different application server
To improve the Import/Export support requirement

17. Which files can be generated by R3SZCHK? Choose 2 ✔ ans.
Package split command files✔
Target database size files✔
Initial extent size files✔
Table Partition definition files

18. What has to be considered if you want to use table splitting for an export/import? There are 2 ✔ answers to this question
The usage of Migration Monitor is mandatory.✔
The parallel import of packages into a single table makes sense on all databases.
The *.WHR files must be located in the same folder as the *.STR files✔
The where_splitter must run on the *.WHR files created by R3TA and PL/SQL table splitter.

19. What are the features associated with the Migration / Table Checker (MIGCHECK) There are 3 ✔ answers to this question
Used by SAPINST✔
Can handle export and import files
Verifies the task file content✔
Long running task✔
Verifies the table contents

20. In what order are tasks executed during the export of an AS ABAP-based SAP source system? Please choose the ✔ answer.
R3LDCTL - R3SZCHK - R3LOAD✔
R3LDCTL - R3LOAD - R3SZCHK
R3SZCHK - R3LDCTL - R3LOAD
R3LOAD - R3SZCHK - R3LDCTL

21. How MIGMON is used for concurrent export/import systems? There are 2 ✔ answers to this question
Technical Post-Migration activities✔
File transfer via FTP, tape, USB disk, laptop✔
Splitting test activities
Pre-Migration test activities

22. How do you activate the trace option for the R3SZCHK program? Please choose the ✔ answer.
Set environment variable R3SZCHK_TL=<1...4>✔
Call R3S2CHK with parameter -TL=<1...4>
Call R3S2CHK with parameter -TRACE_LEVEL=<1.. A>
Set environment variable R3S2CHK_TRACE_LEVEL=<1 4>

23. Identify the most suitable option for- "Export JAVA stack and import into the same database; but as MCOD installation. Remove original JAVA stack" Please choose the ✔ answer.
Remove JAVA stack
Move JAVA stack
Keep JAVA database✔
Move Java database

24. What is the output of the OS/DB Migration Check? Please choose the ✔ answer.
Optimization of the export/import system setup
Suggestion for parameter settings suited for the target system✔
Recommendation of migration tool versions to be used
Verification of the data consistency within the migrated target system

25. Which of the following is not an Initial extent sizes for .EXT Calculation? Please choose the ✔ answer.
Target✔
Primary index

Table
Secondary index

26. In which directory are the EXPDMP_<PACKAGE>_<nnn> files located?
JAVA/JDMP *or* <export_dir>/JDMP✔
ABAP/DATA
JAVA/DB/<DBS>
ABAP/DB/<DBS>

27. Which information is contained in the R3LOAD dump file header? Please choose the ✔ answer.
File checksum
Compression ratio
Migration key
Source system information✔

28. Which of the following R3LOAD task files create a primary key? Choose 2 ✔ ans
<PACKAGE>_DP✔
TSK
<PACKAGE>_TP
TSK✔
<PACKAGE>_TD
TSK
<PACKAGE>_D
TSK

29. Which of the following is a JLOAD: Export/ Import Statistic Files? Please choose the ✔ answer.
*.STA✔
XML
*.STA
*.XML
*.<STAT>.XML

30. Which of the following are heterogeneous System copies? Choose 2 ✔ ans.
Operating System from type X to type Y✔
Database from type X to type Y✔
Database type X from version n to version n+x
Operating system type X from hardware architecture A

31. Which tasks does the R3TA tool perform? There are 2 ✔ answers to this question.
Creates WHERE conditions using the field PAGENO for de-clustering✔
Splits tables by ROWIDs if the source system is running on an Oracle database
Creates WHERE conditions containing ASCII characters for Unicode conversions✔
Splits tables by a specified number of splits or a specified number of records✔

32. What are the operating levels for Technical Post-Migration Activities? There are 3 ✔ answers to this question

Perform a file system backup✔
Set up database storage units
Install the SAP system license✔
Install the latest SAP system
Set up external interfaces✔

33. During parallel export and import, what information can you get from the import_state.properties file?
Package import order
Number of parallel FTP processes
Status of the signal file creation
Currently running import packages✔

34. You Note that tables were loaded into the wrong database storage unit after a R3LOAD system copy.

Which of the following file types must you analyze? Note: There are 2 ✔ answers to this question.
STR✔
TOC
EXT
TPL✔

35. Which of the following is not a question for- SAP OS/DB Migration Check Project Audit? Please choose the ✔ answer.
Description of the Productive System(s)✔
Description of the Source System(s)
Description of the Target System(s)
Name of the Migration Partner

36. Which of the following is not a benefit of SAP OS/DB Migration Check? Please choose the ✔ answer.
Independent of 3rd party stand-alone solution
Efficient Project Implementation through Migration Partners
Standardize positions for all migrations
Standardize positions for selected migrations✔
Inspection of project schedule by SAP

37. Which tasks does the JPKGCTL tool perform? There are 3 ✔ answers to this question
It creates export / import job files✔
It computes target database size
It controls multiple JLoad processes
It computes package size information✔
It performs package splitting✔

38. In which cases is an R3L0AD task file merge required?
If R3L0AD terminates on a database error.✔
If R3LOAD finds an inconsistent table

If R3LOAD is manually aborted by an administrator.✔
If R3LOAD discovers a syntax error in a * STR file.

39. Which of the following statement is TRUE regarding Required Source System Technical
Information? Please choose the ✔ answer.
Limited disk space for unloading the data
Transport tables from source to target system
Tables in ABAP Dictionary but not in DB or vice versa✔
Internal files and target systems

40. Which of the following statements are TRUE regarding R3LOAD ABAP Data
Export/Import? There are 2 ✔ answers to this question
Table Splitting for multiple data process✔
Efficient data compression✔
Requires syntax check for heterogeneous data import
Implementation is database and platform specific✔

41. How will you prevent the export or import of unwanted table data in R3LOAD activity?
Please choose the ✔ answer.
Tables marked with "data"
Tables marked with "STR"
Tables marked with "all"
Tables marked with "struct"✔

42. Which options are available in the ABAP package splitter? There are 2 ✔ answers to
this question
Move tables larger than a certain size into separate packages✔
Limit the number of packages that are created
Group tables using the same size class into the same package
Insert tables from a provided list into individual packages✔

43. What are the special purposes of MIGMON in relation with ABAP Web AS - Target
System Tasks > NW 7.0? There are 2 ✔ answers to this question
Import data from systems✔
Generate R3LOAD command files (*.CMD)for data import✔
Generate R3LOAD task files (*.TSK) for data import (>6.10)✔
Database update statistics

44. Which ABAP data dictionary definations are available when you use R3LDCTL. to
generate structure file for heterogeneous and homogeneous system copies? Please choose
the ✔ answer.
Partition fields✔
View fields✔
Compression fields
Primary key fields✔

45. Which files JPKGCTL create to enable an optimized export of packages?
split_input.txt

dbsize.xml
sizes.xml✔
jsplitter_cmd.properties
